

ASHIK SANTHOSH P

 ashiksanthosh2706@gmail.com

 8111810207

 Ernakulam, Kerala

Profile

Enthusiastic and detail-oriented MCA student with a strong foundation in Full Stack Development, database management, and software engineering. Proficient in building secure and responsive web applications using modern technologies including React.js, Node.js, Express.js, MongoDB, and Python. Experienced in developing real-world projects involving authentication systems, REST APIs, and database-driven platforms with a focus on performance, usability, and scalability. Passionate about solving real-world problems through technology and eager to contribute technical expertise, creativity, and continuous learning to innovative software development environments.

Education

MCA, M G University
2024-2026 (Result Awaited)

B.Com Computer Application, M G University
2020-2023

Plus Two, Kerala Board
2018-2020

Technical Skills

Languages

Java, JavaScript, Python

Frontend

React.js, HTML5, CSS3, Responsive UI, Component-Based Architecture

Backend

Node.js, Express.js, Django, REST APIs

Databases

MongoDB, SQLite, MySQL

Developer Tools

Git, GitHub, Postman, VS Code

Office & Tools

Microsoft Word, Microsoft Excel

Projects

Smart Home Authentication and Device Management System, MERN Stack

- Developed secure smart home platform with phone number verification and OTP-based authentication
- Implemented user registration and login workflow using Node.js, Express.js, and MongoDB
- Designed device management module allowing residents to add, monitor, and control smart devices
- Built RESTful APIs with validation for device registration, status control, and user operations
- Implemented device usage tracking to monitor activity and improve system monitoring
- Created responsive React dashboard for managing devices and enhancing user experience

Recycling E-commerce Platform, Django Mini Project

- Developed eco-friendly e-commerce platform to promote buying and selling of recyclable products
- Implemented user registration, product listing, cart management, and checkout features
- Built admin panel for managing products, users, and orders using Django framework
- Integrated SQLite database for product and transaction management
- Encouraged sustainable waste management through digital marketplace

Interests

- Full Stack Web Development
- Software Design and Development
- Problem Solving and Logical Thinking
- Learning Emerging Technologies
- Building Real-World Software Solutions
